

PROVINCIAL TEAM OR PROJECT Selection Policy

Overview

This document provides the general guidelines for athlete selection to OCA/Team Ontario Projects [e.g. National Championships]. These guidelines will not apply to all initiatives, specifically one-day or on-going development programs, and select training initiatives. Further, as a result of specific grant requirements and/or timelines for selection, deviation from these guidelines may be required. This will be at the discretion of the High Performance Manager. The High Performance Committee will be notified of such situations.

Selection Criteria

OCA contracted coaches, through consultation with the High Performance Manager, will be responsible for developing project appropriate criteria. When applicable, the criteria [i.e. major camps, provincial team selections], will be submitted to the High Performance Committee six (6) weeks prior to selections [timeline may not always be possible].

High Performance Committee Approval

The High Performance Committee will have two (2) business days to provide input, ask questions, or approve/deny the selections as presented. The essential role of the committee is to ensure the criteria was applied as posted and provide opinion on coach/committee selections. Following a minimum of 51% approval from the committee, athlete selections will be determined to be final.

Appeals

All appeals must follow the OCA Appeals Policy.
